

Will continue to maintain contact with old and new Left contacts for indication of ties with ELLSBERG and continue the program of establishing sources within New Left organizations and interview members of academic organizations in which ELLSBERG has indicated an interest in order to fully cover his activities.

Will continue to conduct investigations concerning

DANIEL ELISBERG, to determine if has any additional information regarding ELISBERG's overall activities, it being noted that has previously stated she does not want to report on ELLSBERG's activities on a regular basis.

Will await the return of

that she may be interviewed regarding her knowledge of the ELLSBEKGS.

ADMINISTRATIVE:

The following analyses pertains to , as an individual who might have assisted ELLSBERG in some manner in connection with making available copies of the McNamara Study to the press.

They came to notice when cab driver Lexington Cab Company, during interview stated he believed he delivered a male cab passenger, identified by others as NEIL SHELHAN, to 375A Harvard Street, Cambridge.

It should be noted however, that
is an elderly individual who may be confused in his
recollections of his transportation of a male and female
passenger from Victor Publishers Inecaporated, Bedford,
Massachusetts to Cambridge, Massachusetts. This assumption
is based on the fact that in his initial interview he did
not mention driving this male fare to two places but merely
reported he left him at 4 Trowbridge Place, Cambridge,
which he described as a modernistic apartment building.
That description fits the apartment building at 4 Trowbridge
Place because of its extremely modernistic design with
concrete facing and ceiling to floor windows. The other
buildings on that street are old wooden structures.

also volunteered that his fare entered an apartment where there was a large wine rack.

Interview of various individuals has developed that MARX's apartment had a large wine rack preminently displayed on one side of the living room containing a large collection of various wines. This would indicate that was actually talking about MARX's apartment, expecially when he mentioned the apartment was on the third floor as is apartment 3D.

A THE WAY WAS THE THE THE THE

At this time, (September 3, 1971) however, states that he was not in either apartment but left his fare outside in the hallway with his luggage.

In a second interview was shown the door to MARM's apartment and at that time stated that he definitely could not recall a decal prominently displayed on the outside of the door which warned that the premises were protected by a burglar alarm. Subsequent investigation has reflected that that decal was placed on the door long after the burglar alarm system was installed and, in fact, although records of the Burns Electronic Security Services Incorporated (BESSI), do not reflect exactly the date of installation, the best recollection of the installing employee was that it was probably during the week of March 22 to 29, 1971 when he worked alone as his partner was on vacation. Thus, could have been confused by the fact that when shown the apartment in July, 1971, the door had the large colored sign on it. This could have been installed after he was at that building on March 22, 1971.

It should also be recalled that in attempting to locate the second apartment where he stated that he left his male fare, was driven over numerous streets in Cambridge with negative results and it was not until he returned to 4 Trowbridge Place to start the search over that he announced that the building at 375A Harvard Street looked familiar to him. Since 375A Harvard Street is actually across the street from 4 Trowbridge Place and vehicular movement to that building would only involve a U turn (distance of about 50 yards), it is difficult to see how could think of traveling any distance between the points as he stated.

It should also be noted that although was subpoenced before the Federal Grand Jury at Boston, he was not actually called as a witness since his recollections differed between his earlier interviews.

In addition originally made a "look alike" identification of NEIL and SUSAN SHEEHAN as his fares from photographs, however, in a second interview he stated the male passenger resembled published photographs of DANIEL ELLSZERG subsequent to his arrest on June 23, 1971. That identification obviously is incorrect since SHEEHAN was identified by others as the person who entered so cab at Victor Publishers.

Other information developed from interviews of taxi drivers has reflected trip cards to and from 4 Trowbridge Place indicating that that address is actually the one used by SHEEHAN before or after visiting the reproduction companies:

of particular note also is the fact that even took his fare to 375A Harvard Street he recalled climbing to the second or third floor and definitely passed the ground floor apartment wherein reside.

Investigation to date has eliminated residents of 375A Harvard Street as likely associates in reproduction of the "Pentagon Papers" based on their age, background or length of residence with the possible exception of

During interview the were cordial and stated that although they knew ELLSBERG they had not seen him socially or otherwise since moving to Cambridge, Massachusetts, and they were not aware of the existence of the McNamara Study.

As noted previously other witnesses have stated that NEIL SHEEHAR was the male passenger transported from Victor Publishers to Cambridge, therefore, although he was not identified by the male passenger's identify is not unknown.

Based on the foregoing the Boston Office feels that should be eliminated from further consideration as an individual who assisted ELLSBERG in providing the news media, especially the New York Times since he originally came to notice through interview of

In connection with the large colored decal placed on the door of SPENCER MARK's apartment at 4 Trowbridge Place, it should be noted that thorough interviews of all individuals from BESSI has failed to determine the name of the person who requested that the decal be placed on the door as well as the date on which it was installed.

Tho installed that decal stated it was probably put on during the week of March 22 to 29, 1971 since he installed it alone and would normally have been working with another individual except that that individual was on vacation during that period. He also recalled talking with Mrs. LOUIS MACK, mother of SPENCER MARK at the time he installed it and she mentioned that her son was giving up the apartment next door which further indicates the decal was installed in approximately March.

Since the burglar alarm system had been installed in the fall of 1970 and the large decal pertaining to that system was not installed until much later, Boston speculates that this would be further indication that something of particular value, possibly the "McNamara Study" was being stored in that apartment at that time. It is quite possible that BESSI was contacted to have the decal placed on the door to further safeguard the apartment and its contents. As noted above, however, records of BESSI can not determine the date of installation or why the decal was installed at that particular time.

In view of the fact that a vast number of telephone numbers set forth in tell records of the Cambridge Institute and were made for further investigation by Departmental Attorney PAUL M. VINCENT, and the importance of the relationship of the subscribers to those numbers to this case has not been established to date, they are not being set forth in this report, but will be reported by separate LAM. Thereafter, pertinent subjects will be selected upon whom investigation will be instituted and the results thereof will be reported.

Bureau airtel 9/16/71 states that it is imperative to successful prosecution of the SHEEHANS to prove that ELLSBERG, in fact, did supply the documents to the SHEEHANS. As noted in this airtel, Boston currently has no witnesses capable of testifying that ELLSBERG passed the McNamara study documents to the SHEEHANS. The forthcoming testimony at the Boston FGJ by MOAM CHOMSKY, SPENCER MARX, K. DUN GIFFORD, and IDELLA MARX has the possibility of providing the above link.

Boston is unaware of intention of USDJ regarding possible Statute proceedings against SUSAN SHEEHAN and her husband CORNELIUS MAHONEY SHEEHAN. Boston feels that the below-listed data is sufficient for successful prosecution of SUSAN SHEEHAN under Section 793(E). (The known activities of involvement of NEIL SHEEHAN are believed to be prosecutively stronger than those of his wife.)

The Bureau is requested to obtain Departmental opinion regarding requirements for additional evidence necessary for successful prosecution of the SHEDIANS.

The following investigation was conducted by Special Agent on August 24, 1971:

A check of indices at Weidner Library, Harvard College, Cambridge, Massachusetts, revealed on file two copies of ELLSBERG's Doctoral. Dissertation "Risk, Ambiguity and Decision" (1963).

Personnel, Archives Room, Weidner Library, advised that degree candidates in the John F. Kennedy School of Government are required to submit two dissertation copies to the Weidner Archives, and that for security reasons, no copies are retained in the Littaeur Library of the John F. Kennedy School of Government; also, that to obtain a thesis over one year old, a full application must be made, with identification, including the reason for its use, in order to protect author's copyrights.

Personnel, Littaeur Library, confirmed the preceding and further advised that in addition to the candidate's own copy, the candidate's major professor usually requests a copy,

Personnel, Weidner Library Reference Service, advised that to protect security of copyrights, Harvard University does not contribute its doctoral dissertation for microfilming or xeroxing to University Microfilms, also known as Dissertation Abstracts in Ann Arbor, Michigan.

He said that he only occasionally utilizes this Savin Machine and that it is possible that this machine will be returned to the Savin Business Machine Corporation at any time.

PACE assured that this Savin Machine is the Savin Machine utilized by Ers. SHEEHAH and her husband during their reproduction sessions at his firm in March, 1971.

real acquaintence with DANIEL ELLSPERG, but he has no tered him professionally on about rix occasions dating from 1963. He said he first heard ELLSPERG discuss Vietnam policy in 1967 when ELLSPERG was the guest lecturer at the Harvard National Security Policy Section, organized and hosted by Professor HENRY RISSINGER, now the Special Assistant to the President for National Security Affairs. At this meeting recalled ELLSPERG, who had just recently returned from a tour of Vietnam, gave a pessimistic assessment of the United States progress in Vietnam.

The next encounter was at the meeting of the Council on Foreign Relations (CFR) held at New York City on Movember 17, 1970 at which FLISHERG was the principal speaker and invitee of the Chairman of the meeting, Dr. ROBERT OSCOOD of Johns Hopkins University.

Trecalled FLLSBERG's theme as "Coercive Diplomacy", in which the crux of his remarks related to Operation Holling Thunder as an example of the use of force for political purposes.

DERG's remarks were obviously excerpted from the highly classified McMamara Study, the existence of which was known to the meeting's participants, many of whom held ton secret clearances and had themselves assisted in the McMamara Study.

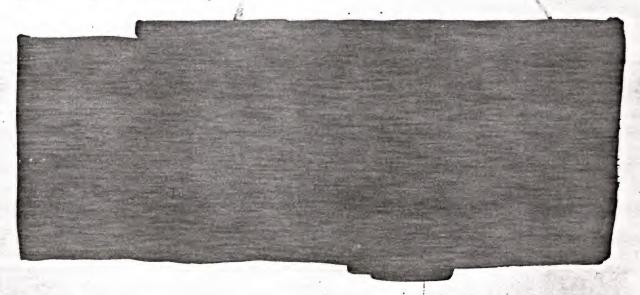

Stated FLLSBERG's lecture, "Coercive Diplomacy", has been published as CFR Background Paper Number 3, dated Mc-vember 17, 1970 for the confidential use of CFR members.

In this paper, ELLSDERG was said to have cited United States intelligence failures in both Vietnam and other areas. He allegedly emphasized the Cuban Missile Cricis of 1962 as a glaring example of a gross underestimate by United States intelligence of the number of operable missiles in Cuba. ELLSBERG claimed that in about 1963 he made a study of the Cuban Missile Crisis, the results of which, he alleged, he presented to former Presidential advisor WALT W. ROSTOW and other high level government officials at a meeting of the "Thursday Luncheon Group", described by as a weekly meeting of foreign policy officials.

attendance at CFR meetings held on December 16, 1970 and January 26, 1971. He recalled that at one of these meetings, ELLSBERG's assertions and conclusions were challenged by WILLIAM P. BUNDY, an Assistant Secretary of State during the JOHNSON Administration. He stated that at these latter meetings, ELLSBERG did not appear as a speaker or otherwise participate actively.

commented that prior to the publication of the Pentagon Papers, he was not aware of any association by ELLSBERG with leftist or radical elements.

Stated ELLSBERG did not discuss any changing psychology on the war, but merely expressed disappointment that policy was not working, discussing the wording of certain cables and whether different wording would have made any difference. Stated he had no reason to suspect ELLSBERG during this period or ever afterwards, and he did not believe ELLSBERG would have turned over the classified papers to the press during that period.

he has seen ELLSBERG only twice since 1968, each time during the course of a trip to the Rand Corporation in California. He believed the last encounter was during the winter of 1970 and the prior occasion was about a year before that. Each occasion involved a visit of only a couple of hours. recalled that the latter occasion was about the time of the arrest of Vietnamese Deputy TRAN NGOC CHAU and ELLSBERG was highly upset over the incident. ELLSBERG stated CHAU's was a "trumped up political charge", since he knew CHAU was cooperating fully with the U. S. Government. could not recall the date of this incident but stated he has neither seen nor heard from ELLSBERG since that time and he has not been contacted by ELLSBERG or on behalf of him since then.

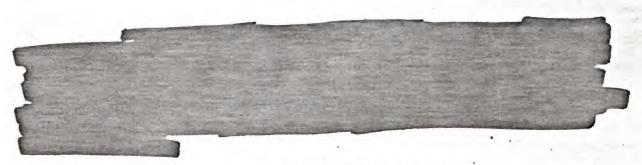

ELLSBERG, by virtue of his experience, was highly schooled in the importance of security and it seemed incongruous that ELLSBERG would turn over such highly classified documents to unauthorized persons.

Continued that when he heard the Pentagon Papers had been "leaked", it never occurred to him that ELLSBERG was the guilty party stating that he did not even know the Rand Corporation had a copy of the papers. He stated that ELLSBERG never mentioned the "Pentagon Papers", having access to same, or copying same.

had answered in the negative to the question whether he had been contacted by DANIEL ELLSBERG or on behalf of him.

He stated that after reflection, he recalled that sometime during 1969, shortly after some members of the Rand Corporation had released a letter to the press, he received a telephone call from ELLSBERG. ELLSBERG inquired as to whether was interested in signing a similar letter to be released.

Stated he informed ELLSBERG he was not interested and knew of no one else who would be interested, and that ELLSBERG made no effort to persuade him to change his mind.

The Vietnamese Could Settle Their War at the Ballot Box"

Washington Post observes (editorial, "Americans President Johnson's inflated praise of tean Interest in Re-Electing President Thicu, April 23) between "Victnamization" of the Aver and 'relf-determination for the Victnamese is precisely the reason the Victman. Elections Project supports the resolution proposed by Senator Stevenson requiring the United States to cease support for the relection efforts of any South Victnamese political faction, and establishing a Congressi. cional Commission to monitor II is involvement in the Vietnamese, elections, Supporters of the Stevenson resolution-Senalors Mansfield, McGovern, Hughet, Church, Kennedy, and Muskie, all leading spokestoen for rapid withdrawal of U.S. troops from Vietnam-realize that withdrawal alone will not end this war.

Peace could conic if the U.S lets the Vistnamese people settle their war, I'ew Visinamese believe that peace is possible without a government dedicated to seeking a compromise political arrangement. Popular election of Vietnamese leaders who refleet the overwhelming desire of the Victnance, people for peace could bring this war to a rapid conclusion, to latively fair elections could happen in Victnam; in last year's Victnamese Senatorial election a "peace" slate came in first.

Renatora Stevenson and Church are urging public notice of some of the specifies of U.S. Involvement in the Vietname & election. For example, Stevenson has publicized a New York Times report (Feb. 2, 1971): "... national surveys of Vietnamese public opinion . . . prepared and analyzed by the U.S. Mission . . . are being used to assist President Thieu in his re-election efforts ... " Senator Church has investigated how the U.S. Information Agency JUSPAO operation in Vietnam is "now engaged in a massive campaign," to sell the Thien govcomment to the Vietnamese electorate.

1. In April, 1971, both The Post and the Eimes reported the enormous investment ef U.S. funds and advisory support in the South Vietnamese government's police apparatus-which is frequently used for the errest and detention of the South Victpamese non-Communist opposition. U.S. expenditures for the National Police alone bave increased 25 per cent over 1970 to provide \$27.3 million for 1971- a figure which excludes the special police assertance fundand by the ClA. Yet Vietnamere are constinced that Victnam's prisons hold more pon-Communist nationalist opponents of the regime than affiliates of the Communist National . Liberation Front.

Official U.S. statements of exaggerated The "profound contradiction" that Tho praise for Vietnam's military leaders—such Nguyen Cao Ky at Honolulu in 1965 and President Nixon's statement that Nguyen Van Thieu was "one of the five or six greatest statesmen in the world today"gre bitterly resented by many Victnamese as evidence of U.S. political support for the Thick covernment and its repression of popusition. Most Vietnamese feel powerless to urfect their government. In Victnam, newspapers are regularly closed down by the government. Non-Communist political associations are refused permission to organize. Non-Communist political leaders who oppose the current regime or propose a compromise peace are jailed, put . in house confinement, or exiled. - quartact adjusted correctly absorbed that the

the White House-appointed Commission which "observed" the 1967 Victnamese election "gave the performance a clean bill of health," although most Victnamese and many informed Americans believe the 1967 election was fundamentally fraudulent. It is precisely a repetition of this "performance" that the Stevenson resolution archa. to prevent. The 1967 conndiction of 22 dignitaries, who spoke no Vietnamese and were not supported by a Vietnamescapeaking staff, spent four days in Victnam, seeing what the Vietnamese government and the Embassy-MACV good news factory chose to show them. The commission's report was heavily influenced by commission chairman and former U.S. Ambassador to Vietnam Henry Cabot Lodge, who described the elections as "wholesome." And President Thieu has invited new U.S. "observers' in 1971.

Certainly Senator Stevenson's proposal has dangers-the wrong commission members and staff could legitimize a fraudulent election. For this reason, Senztor Stevenson takes care to state that "nothing" in his resolution "shall be construed as creating any commitment of military assistance" no matter what government is

elected in October.

Important differences exist between the 1967 commission and Stevenson's. Concealing electoral fraud from the Stevenson Contaission would be difficult. The Steventon Commission would be composed of senator and representatives and would not besubject to White House control, It would to with the second of the seco employ a staff of Victnamese speaking specialists with knowledge and experience in reporting Vietnamese political affairs. Its staff would be in Vietnam months before the election, and would report to Congress regularly.

F If this commission performs well, it could accomplish four things:

. 1. The presence of the commission staff in Vietnam would affirm to the Vietnamese the American desire for free elections stated in the Stevenson resolution, and it could encourage political participation of Vietnamese who seek a compromise peace. Many such politicians are now reluctant to risk political action because they believe that U.S. support makes the re-election of the military regime a foregone conclusion.

2. The commission could monitor the activities of the official American community in Saigon and their possible involvement in the election campaign. The commission's ability to reveal possible U.S. support for a candidate or interest in the elections makes extensive U.S. involvement less likely.

3. The commission staff, and international citention to the Victnamese electoral process, can thus reduce undetected electoral machinations. It cannot end irregularities altogether, but it can deter blatant discregard of basic rights of opposition candidates.

4. Finally, as Senstor Elevinson notes, by Icssening the advantage which even the ap-

pearance of U.S. support gives to the existin regime, this resolution may encourage the present government of Vietnam to heed the desire of the people for peace and reconcillation. It could create the climate in which a negotiated settlement is possible, and it which all American forces could be with drawn more quickly than might otherwise be possible."

What will the United States leave in Vietnam? A military dictatorship; fraudulent elections; an election campaign where opposition leaders cannot organize and speak and print their views openly— is this the objective for which so many Americans, and Vietnamese have been killed and

malmed?

If the U.S. refused to make resources available to the government of South Vietnam which could be diverted to the Thieu government's political campaign, imposing an undesired military government and an unwanted war on the Vietnamese people would be made difficult. If the U.S. actively opposed the subversion of the elections and made its position known in Vietnam, Vietnamese majority sentiments could not be successfully suppressed.

The Victnam Elections Project urges The Washington Post to support the Stevenson; resolution. Speedy passage is essential if Congress is to place the commission staff in Victnam in time to do its job. This proposal could extricate the U.S. from Victnam quagmire and leave behind the hope of something decent and honorable.

the decision to give the Pentagon Fapers information to the newspapers and that he took this action on his own initiative.

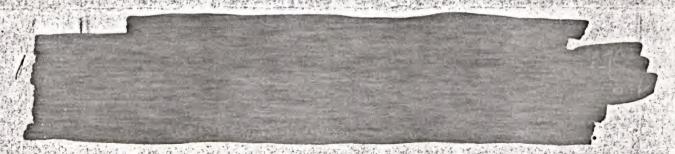

At a 7/1/71 press conference ELLSBERG stated that he and newspapers felt responsible for the decision to bring the information to the public and that he felt he was the source of all documents given to the newspapers.

ELLSBERG also admits receiving assistance from others in thwarting the government by providing reproduced Pentagon Papers material to other publications after New York Times injunction on 6/15/71.

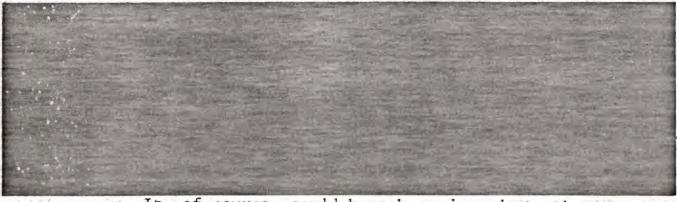

Boston feels that after his reproduction sessions in California in 10/69 ELISBERG maintained a full set of material reproduced and in turn xeroxed portions thereof for his discemination to selected U.S. Senators, congressional committees and newspapers. This of course appears to be a common sense dictate and ELISBERG himself identified the purpose of the 10/69 reproduction as being on behalf of members of the Congress.

At a recent speech at Harvard University, ELISEERG commented regarding the mechanics of reproducing the Pentagon Papers, to the effect that he went to another city where he has not been indicted to a duplicating establishment and was told that the rate was 10¢ per copy. He posed questions regarding the price for bulk reproductions, that is of approximately 7,000 pages and was informed that the price was 9¢ per copy. He then came to Cambridge where he observed the advertisement of 3-2-1 rates (a reference to discount for large reproduction jobs with multible copies at reduced rates). ELISBERG stated that even at the old rate of 9¢ per copy he could assure that the Boston Globe (BG) would not have obtained their copy.

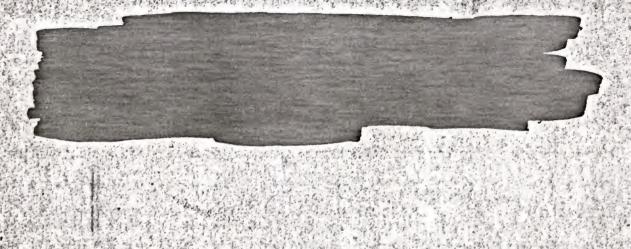

It is recalled that the BG was offered and received the Pentagon Papers on 6/21/71.

It, of course, could have been deemed to the advantage of ELISBERG particularly as a legal defense tectic to have wide dissemination and publication in a large number of organs in order to minimize ELISBERG's act of providing these documents to the New York Times.

could have been involved in the offers to the Washington representatives of news media and to local publishers, EG, and Christian Science Moniter.

Washington Bureau, received a long distance call from Boston or Cambridge pertaining to the availability of the Pentagon Papers. In addition the toll calls of the above telephone showed that 12 telephone calls were made and charged to the phone of the PD from or to 9 public pay phones in Cambridge on 6/24/71. A Boston agent checking on the location of these public pay phones concluded that the turnover of the Managaa Study to the PD involved an extensive physical surveilance with "dry cleaning" attempts.

had informed that dispatched to Boston/Cambridge area to make pick up of Pentagon Papers material.

Referenced WFO airtel speculates that ELLSBIRG while visiting Washington, D.C. in early 3/71 mentioned the availability of the Gelb Study to NEIL SHEHAN and arranged to obtain a portion of it from IPS to provide to SHEHAN. Also that ELLSBERG on 3/30/71 probably obtained remainder of study from IPS for SHEEHAN to xerox in early 4/71.

Investigation by Boston has revealed that SHEEHAN utilizing a fictitious name, was in Cambridge 3/16-18; 3/20-23 and 4/7-8/71. The known reproduction sessions by SHEEHAN and his wife (also in Cambridge under a fictitious name) occurred during the period 3/20-23/71.

ELISBERG obtained from IPS and furnished to SHEEHAN portions of the Gelb Study does not appear logical. If material is in Washington, D.C. SREEHAN resides in Washington, D.C. and ELISBERG is visiting in Washington, D.C., the reproductions would appear to logically occur in Washington, D.C. area. IPS has the availability of reproduction mechines and security dictates that the reproductions on behalf of the New York Times would occur within the IPS shop.

Page 5 of referenced WFO airtel states that information set out indicates that served as "courier" of the Pentagon Papers. The Senator GRAVEL copy of the Pentagon Papers was furnished to Massachusects Institute of Technology (MIT) Press on 7/23/71 by acting as courier of the Pentagon Papers to the MIT Press. claims GRAVEL received the papers on 6/24/71. Of course, was the courier of the material delivered to the MIT Fress on 7/23/71 but the question, unanswered to date, is who provided these papers to GRAVEL at an earlier date possibly on 6/24/71 or at least by 6/29/71 when GRAVEL read portions of the McNamara Study into the congressional record.

with the activities of that is the telephone call of 6/23/71 and the possible subsequent activities of

It is noted that

was in Cambridge at Hotel Continental at same time SUSAN SHEEHAN was at this establishment 3/21-23/71.

No information developed involving with the SHEEHANS in reproduction sessions which occurred during the above period.

In the event the Bureau ever obtains any significant portion of the reproduced Pentagon Papers (from news media or Congressman), Boston feels that these will contain handwritten notations. This was stated by attorney for BG in their argument in Court pertaining to injunctions against the BG. The government was prevented from examining the impounded 1300 documents after arguments presented in Court by attorneys for BG. These notations could be in the handwritting of ELLSBERG or in the event WFO speculation is accurate, possibly in the handwritting of individuals at IPS.

It is the opinion of the Boston Division that the identit of the changel of transmission of Pentagon Papers to IPS is not recessarily identidal to the conduit to news media. The speculatic set forth in referenced WFO airtel is plausible. However, even if the DOD Bibliographic Research Team verifies that the book WPAW drew upon the Pentagon papers no valid conclusion can be made regarding the identify of the individual (8) making the disclosure to the news media.

No evidence has been developed to date linking the conduit of source material to IPS for their use in WPAW and the conduit of source material for news media disclosure.

In the event the leak to IPS is ascertained this case is still faced with ascertaining the identity of the leak to news media other than the New York Times (Boston feels that case against SHEEHANS is currently sufficiently developed for successful presecution). As noted above, played a role in this (dissemination to news media other than the New York Times) with the phone call to PD on 6/23/71 at a time when government had legal proceedings prohibiting continued publication by New York Times, Washington Post and BG.

It is further observed that due to apparent poor security charge-cut system at Rand any material at this facility or its branches could have come into ELLSBERG's hands. No examination limitations should be made to material actually charged-out to ELLSBERG or his close associates.

WFO and Los Angeles are requested to provide Boston with analysis of Rand employees (current and past) associated in any fashion with IPS. Boston submitting under separate communication its views on new investigative evenues which could logically be pursued in this matter.

To summarize, for information, recent developments in our continuing investigations of alleged leaks of classified data to the press.

WC LEK (Daniel Ellsberg): On the evening of 11/17/71 Deniel Ellsberg spoke at Lowell Hall at Harvard University in a speech sponsored by two Harvard student publications. Ellsberg called on his audience to change their thinking and learn the power of telling the truth which their elders have apparently lost. He was critical of the role played in the Vietnam War by older Harvard graduates, including former President John F. Kennedy, Secretary Robert McMamara, Ambassador Henry Cabot Lodge and current Presidential Aide Henry Kissinger.

During his speech Ellsberg exhibited a copy of the "Pentagon papers," presently being printed and sold by the U.S. Government for \$50 a set. Referring to this price, Elisberg noted that it was "cheaper than Keroxing." In further comment on the reproduction of these documents, Ellsberg said that he had gone to a city where the cost of reproduction was ten cents a page. After indicating he had about 7,000 pages to copy, he was told the rate would be nine cents a page. He said he then went to Cambridge, Massachusetts, where he learned that discounts were given for quantity Xerox work. Concerning reproduction costs Elisberg also stated "I don't a think at the old rate (nine cents) 'The Boaton Globe' would have gotten its copy." Elisberg did not specifically identify the city where he copied these documents but noted that the location where the cost was ten cents por page m for reproduction was not a city where he has been indicted in connection with this matter. To date, Los Angeles is the only city in which Elisberg is under indictment in connection with this case, and investigation and testimony of knowledgeable witnesses have positively identified Ellaberg as reproducing classified documenta in the Los Angeles area on a number of occasions during the Fall of 1959.

LEAKS OF CLASSIFIED INFORMATION TO THE PRESS

To summarize, for information, recent developments in our continuing investigation of alleged leaks of classified data to the press.

MC LEK (Daniel Ellaborg): Earlier investigation of Ellaberg's trips between Hashington, D.C., and Santa Konica, California, while employed by Rand Corporation, revealed he acted as a courier carrying volumes of the "McNamara Study" on two occasions and, on one such trip in early 3/69 stopped over in Denver, Colorado, for several days. Other investigation revealed that one of Ellaberg's acquaintances in was

was interviewed 10/16/71 and gave innocuous information regarding his association with Elisberg and admitted no activity of any portinence to this investigation. Or reinterview yesterday admitted he had lied during the previous interview saying he was "afraid of damaging Ellsberg's character."

no mention was made of any plans for the disclosure of classified information.

Grand Jury at Los Angeles in this matter but was uncooperative. He had disclosed earlier in an interview by news media that he was aware of Ellaberg's intent to disclose classified information in this matter approximately one year before the actual

disclosures appeared in "The New York Times." The Spring of 1969 would have encompassed one of Ellsberg's courier trips from Washington, D.C., to Santa Monica, it being noted that Ellsberg transported ten volumes of the "McManara Study" from Washington, D.C. to California on 3/3/69.

Instructions are being issued to Dallas to reinterview vigorously in attempt to pin down any activity by Ellaberg of pertinence to this investigation which may have taken place during Ellaberg's visit to Denver in the Spring of 1969.

Assistant U.S. Attorney David R. Missen, Departmental Attorney in charge of the prosocution of Elisberg, advised Los Angoles Office yesterday that he would travel to Boston 12/1/71 in furtherance of reconvening the Federal Grand Jury investigating this matter in that city. He noted that he had filed a motion with the First Circuit Court of Appeals in Boston to reconvene the Grand Jury to hear testimony by Idella Marx in furtherance of the court order which instructed that she testify before the Grand Jury. Missen noted that a copy of his motion to reconvene the Grand Jury has been given to Senator Mike Gravel who has stated he has no objection inasmuch as, in Gravel's opinion, "Mrs. Mark knows nothing." It will be recalled the Federal Grand Jury at Boston has been prevented from hearing information in this matter as a result of motion by Gravel that continued Grand Jury inquiry in the leak of the "Pentagon papers" would infringe on his congressional immunity. Gravel has insisted that the Grand Jury be allowed to continue only if he is provided with identity of witnesses to appear as well as nature of questions that will be posed to such witnesses. A newspaper account noted that the Appollate Court in Boston ruled last night that the Justice Department may resume Ita Grand Jury investigation but placed restrictions on the scope of the probe. The restrictions included exclusion of appearance of Gravel's stoff side Loonard S. Rodberg and banned any Grand Jury questioning of other witnesses so far as those questions related to acquisition, use, or publication of the "Pontagon papers" by Gravel or members of his staff.

Date of transcription 11/4/71

On October 29, 1971,
the American Broadcasting Company
(ABC) furnished the following information:

At approximately 4:30 p.m., on either June 23 or 24, 1971, he received a phone call at his office, New York City, in which the caller offered him 1,000 pages of "Fresh" material from the Pentagon Papers. He explained he knew the exact time and date because he received an inquiry concerning that call approximately ten days ago from a reporter named (phonetic) from the Washington Post.

Along with that offer, the caller identified himself as Mr. GOLD. He wanted a guarantee in advance that once he furnished the material, would then be obligated to broadc that information in those papers. _____stated he was aware of the fact that the Justice Department had already obtained a Federal injunction on three newspapers, New York Times, Washingto Post, and a Boston paper, restraining them from publishing any information from the classified Pentagon Papers. As a result, he advised GOLD he would have to clear this with ABC attorneys. GOLD agreed and stated he would call back within an hour. During that hour, the attorneys advised him that in view of the outstanding Federal injunction against the newspapers, they felt the firm could be held in contempt if they used that material and they advised him to decline GOLD's offer. then alerted the ABC switchboard operator and asked her to attempt to determine from what city GOLD was calling. of the new dial system, she was unable to determine if it was a local or long distance call.

When GOLD called, he was advised of the attorneys decision and GOLD thanked him and then hang up.

then added the following comments: concerning the above offer: At no time did the caller ask for any money and it appeared he was primarily interested in getting nationwide dissemination of the material. He also noted the caller at one point indicated that he had also been in contact with CBS and NBC with the same offer.

remarked they arrived in Cambridge, Massachusetts, the same day and, since was unable to have him as an overnight guest in his home, made a reservation for him at the Continental Hotel in Cambridge. He stated he checked into the Continental Hotel sometime between 7:30 - 8:00 p.m. on March 21, 1971, and remained in his room for the remainder of the night. He commented he checked out of the hotel before 9:00 a.m., the next day.

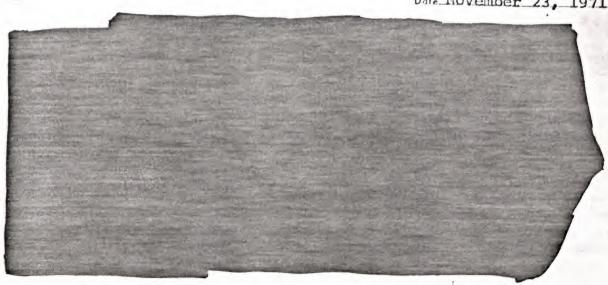

stated that during the evening hours of March 21, 1971, he heard no unusual sounds or traffic in the hallway nor observed any suspicious acting person at the hotel when he arrived and departed.

Photographs of CORNELIUS and SUSAN SHEEHAN and DANIEL ELLSBERG were displayed to and he advised he does not know these individuals by name and had not observed them during his overnight stay at the Continental Hotel.

denied any knowledge concerning ANTHONY RUSSO, and could not recall a telephone conversation with a Mr. RUSSO from Los Angeles, California, during the month of August, 1971, and specifically the third of that month. > To advise of filing of suit by Avram Noam Chomsky against the Attorney General, the Director and the New England Telephone Company, alleging illegal wiretapping. Boston is lin process of submitting papers connected with suit.

> Inquiry at the Clerk's Office, United States District Court (USDC), Boston, Massachusetts, on 11/30/71 determined that on 11/29/71, Attorneys Leonard Boudin and Charles R. Nesson, representing Avram Noam Chomsky, filed a suit with the USDC on behalf of Chomsky, naming the Attorney General, the Director of the FBI, and the New England Telephone Company as defendants. Chomsky is a professor of linguistics at the Massachusetts Institute of Technology and has previously been identified as a close friend and associate of Daniel Ellsberg. Investigation Investigation of Ellsberg indicates strong possibility Chomsky assisted Ellsberg in disseminating copies of the "Pentagon papers" to the During October, 1971, Chomsky was subpoenaed to appear before a Federal Grand Jury sitting in Boston hearing testimony concerning the Ellsberg matter. On 10/29/71, a motion was filed in USDC, Boston to quash Chomsky's appearance before the Federal Grand Jury, following which a Federal Judge instructed Government attorneys to furnish statement regarding possible illegal electronic surveillance of Chomsky, prior to rendering decision regarding Chomsky's appearance before the Federal Grand Jury,

It is noted Leonard Boudin and Charles R. Nesson are also attorneys of record for Daniel Ellsberg.

The present suit of Chomsky states that he is seeking civil redress under the First (freedom of religion, speech, press and assembly), the Fourth (right against unreasonable searches and seizures), and the Sixth (right to a jury trial) Amendments to the United States Constitution. Chomsky cites Title 18, United States Code, Sections 2510-2520 (pertaining to recovery of civil damages in wiretap cases), and Title 47,

AUSA NISSEN ADVISED MRS. MARX WAS MOST UNCOOPERATIVE IN HER APPEARANCE BEFORE FEDERAL GRAND JURY.

DEPARTMENTAL ATTORNEY NISSEN EXPLAINED THAT THE ORDER OF
UNITED STATES COURT OF APPEALS ON NOVEMBER TWENTYNINE, NINETEEN

NOT THE DECISION OF THE UNITED STATES COURT OF APPEALS ON THE

OF THE SENATOR'S HANDLING OF THE COPY OF THE PENTAGON PAPERS THAT HE HAD AT ANY TIME PRIOR TO. DURING OR AFTER HIS READING OF THAT MATERIAL INTO THE CONGRESSIONAL RECORD VIA HIS SUBCOMMITTEE. THE GOVERNMENT ACCORDING TO NISSEN HAS COUNTERED THAT IT HAS THE RIGHT TO INTERROGATE ANYONE OTHER THAN THE SENATOR AND THAT THE SENATOR IS IMMUNE ONLY CONCERNING THAT PERIOD WHEN HE RECEIVED THE PAPERS AND UP TO AND INCLUDING THE TIME HE READ THEIR CONTENTS INTO THE CONGRESSIONAL RECORD. THE ORDER OF NOVEMBER IMENTYNINE LAST BY THE UNITED STATES COURT OF APPEALS WAS BASED ON A MOTION SUBMITTED BY WARREN REESE FROM LOS ANGELES WHO MOVED, THAT THERE WOULD BE NO INQUIRY INTO ANY ACTIVITIES OF THE SENATOR. HIS STAFF. AIDS. ET CETERA UNTIL THE UNITED STATES COURT OF APPEALS MADE ITS DECISION. THE RESTRAINING ORDER OF OCTOBER TWENTYNINE LAST WAS THUS AMENDED TO ALLOW THE FEDERAL GRAND JURY TO MEET AT BOSTON TO HEAR MRS. IN VIEW OF ABOVE BOSTON'S REQUESTS OF BUREAU TO CONTACT DEPARTMENT RE WORDING OF NOVEMBER TWENTYNINE ORDER NO LONGER DESIRED. END PAGE SEVEN

To obtain authority for Boston Office to interview and and for WFO to interview , all of the "Boston Globe," regarding their knowledge of Daniel Ellsberg and how the "Boston Globe" obtained the "Pentagon papers."

The "Boston Globe" was one of a number of U.S. newspapers which printed articles based on the 'Pentagon papers" following the initial article by "The New York Times" on 6/13/71. Details concerning the manner in which these newspapers obtained their portions of the "Pentagon papers" continue to be unknown. Investigation has determined that this material was furnished to representatives of various newspapers in the Boston area and the "Boston Globe" has publicly stated it obtained its portion of the documents on the grounds of Harvard University on 6/21/71. We have not developed information concerning from whom the "Boston Globe" obtained this material. Boston has identified / persons associated with the "Boston Globe" who would possibly be in a position to furnish the desired information, however, has made no positive recommendations since that office felt any interviews would be unproductive. was called to Boston in late June to work on the "Pentagon papers." It would appear these three persons would be logical targets for interview as they would possibly be in possession of information which would be of great assistance in this investigation. No information appears in Bureau files or the files of Boston or WFO to preclude these interviews.

ACTION:

If approved, the attached teletype will be directed to the SACs, Boston and WFO instructing that interviews be conducted of and Instructions will be issued that at the outset of the interviews these persons should be informed that this investigation is being conducted at the specific request of the Assistant Attorney General, Internal Security Division.

RE: LEAKS OF CLASSIFIED INFORMATION

In an effort to determine whether the Rand Corporat: where Ellsberg was formerly employed, had any U.S. Government ownership or direction,

Corporation. Santa Monica, was contacted on 12/2/71. According to the Rand Corporation was incorporated as a non-stock, non-profit organization.

Rand is entirely privately owned with no Government participation in either ownership or on the Board of Directors.

the idea of the "Project Rand" contract was originally conceived by General Hap Arnold, U.S. Air Force, who foresaw the need for scientific support for military planning. Prior to 1948, the "Project Rand" concept utilized facilities of Douglas Aircraft, Los Angeles, Californ and drew on research experts from Douglas and other aerospace firms in the area. Due to a possible conflict of interest thr the use of Douglas facilities, it was decided the project show become completely independent and in 11/48 the Rand Corporation incorporated utilizing a million dollar interest free loan rec from the Ford Foundation. The loan was later changed to a straight million dollar grant from the Ford Foundation with th stipulation that if the corporation should dissolve, all asset belonging to the corporation would revert to the Ford Foundati noted that the Department of Defense and the U.S. Air Force contested this stipulation with negative results. added that all profits earned by Rand Corporation are put back into the corporation for additional research purposes and the charter stipulates that Rand research should be directed towar public interest.

To summarize, for information, recent developments in our continuing investigation of alleged leaks of classified data to the press.

MC LEX (Daniel Ellaberg): Inquiry at the Clerk's Office, U.S. District Court (USDC), Boston, yesterday revealed attorneys Leonard Boudin and Charles H. Nesson, representing Avram Noam Chomaky, had filed a suit on behalf of Chomaky against the Attorney General, the Director of the FBI and the Now England Telephone Company, alleging Chomaky has been the subject of an illegal wiretap. Chomaky, a linguistica professor at the Massachusetts Institute of Technology, has previously been identified as a close friend and associate of Daniel Ellaberg and investigation indicates atrong possibility Chomaky assisted Ellaberg in disseminating copies of the "Pentagen papers" to the press. Details of Chomaky's suit are being set forth in separate memorandum.

Records of the Clerk's Office, U.S. Court of Appeals, First District, Boston, yesterday revealed that a memorandum and order was entered by Chief Judge Bailey Aldrich, bearing on the restraint previously imposed on the Federal Grand Jury (FGJ) by this appellate court on 10/29/71. According to this order, the FGJ may now pursue its inquiry into crimes relating to the "Pentagon papers" providing that neither Senator like Gravel nor any member of his staff or the staff of the Subcommittee on Buildings and Grounda shall be subposensed to testify and that no witness shall be questioned concerning the acquisition, use, publication, or republication of the "Pentagon papers" by Senator Gravel or any member of his staff until further order by the U.S. Court of Appeals.

a meeting of the Senate Subcommittee on Buildings and Grounds on the night of 6/29/71 during which he rend documents described by him as consisting of the "Pontagon papers." Gravel later

was identified as having made a copy of the "Pentagon papers" available to the Beacon Press of Boston, which has published a four-volume set of books containing these documents. On 10/28/71 the U.S. Court of Appenls, Boston, ordered no further Grand Jury investigation be conducted at Boston concerning the "Pentagon papers" pending determination of questions raised in a suit filed by Senator Gravel to the effect that FGJ hearings violate his legislative immunity.

It will be recalled that Mrs. Idella Ruth Harx, Daniel Ellaberg's mother-in-law, appeared before the FGJ in Boston 10/13/71 and after receiving immunity refused to testify and was subsequently held in contempt of court. Commitment was stayed, however, and Mrs. Marx was released on bend pending appeal. Yesterday, according to a news account, an attorney for Mrs. Marx advised she has now agreed to testify before the FGJ rather than face a definite jail sentence for contempt of court.

1. ELLSBERG acted independently in reaching his decision to copy the Rand documents in his possession and his purpose was to make these documents available to the Fulbright Committee.

It is not felt that ELLSBERG had formed any alliance with others at this time (October 1969) as he apparently lacked counsel, acting extremely indiscreet in his choice of associates at the xeroxing sessions at the Sinay-Longino Advertising firm. It was stupid to have involved his children and such questionable and unreliable individuals as ROSENBERG, SINAY and RUSSO.

2. ELLSBERG made only one or at the most, two copies of the Rand documents in Los Angeles during October 1969.

3. ELLSBERG gave Senator FULBRIGHT one copy of the documents, which FULBRIGHT has retained.

Prior to delivering the documents to Senator FULBRIGHT, ELLSBERG while in Washington, D.C. may have contacted IPS who could have made one or two additional copies of the documents, keeping one for themselves and providing ELLSBERG with a spare set. This is compatible with IPS statements as set forth in referenced WFO airtel that IPS was in possession of the Pentagon Study in the fall of 1969.

4. ELLSBERG either had only one set of the Pentagon Papers in his possession in March 1971 or had temporary loan of a set, perhaps from IPS.

This is borne out by the frenzied and risk-taking activity by the SHEEHANS in using commercial firms in the Boston area in duplicating the documents. Had ELLSBERG spare sets he could have provided SHEEHAN with a copy and SHEEHAN in complete safety using the facilities of the "New York Times" made all the copies he wanted.

If ELLSBERG had a borrowed set that had to be returned, this could be the reason for SHEEHAN's urgency. The "Times" did not publish until 6/13/71. Further, ELLSBERG was departing on vacation to the Carribean and had it been ELLSBERG's own set, SHEEHAN could have copied the documents at his leisure in a secure location.

It is to be noted that was in Cambridge at the Hotel Continental at the same time SUSAN SHEEHAN was there, 3/21-23/71.

5. ELLSBERG independently decided to make the documents available to the "New York Times" as he had given up on any Congressional action.

Los Angeles does not believe that this was a joint decision of IPS and ELLSBERG in order to let the news media take the "legal heat" in publishing the Top Secret documents so that IPS could later publish its book in safety. Had this been the case, IPS using its own xerox facilities, could have made copies of the documents and provided SHEEHAN a copy in complete safety and privacy.

6. ELLSBERG and the "Times" had reached some sort of agreement on date of publishing documents in order to allow ELLSBERG to continue his efforts to get a liberal Congressman interested in the documents.

In May 1971 ELLSBERG was in contact with Congressman PAUL McCLOSKEY of California relative to the documents, this subsequent to releasing the documents to SHEEHAN. Both ELLSBERG and RUSSO have stated that the "Times" double-crossed them in the premature news release of the documents. It has been speculated that the "Times" was afraid that McCLOSKEY would "scoop" them.

7. After the "Times" published in June 1971 and a court injunction stayed publication after 3 days, ELISBERG deciding the die was cast, made an independent decision to provide other news media with the documents.

It is doubtful that the "Times" would have assisted ELLSBERG in this action as the "Times" had an exclusive and had put a lot of time and money in the project.

If ELISBERG had only one copy, or limited copies of the documents at that time, he must have been presented with a dilemma as to how to get additional copies made rapidly. Due to the publicity attendant to the "Times" expose, it would be extremely risky to use commercial facilities.

- 8. ELLSBERG turned to "think alikes" in the Cambridge area for assistance. In this case it was most likely and All had copying facilities available to them at the Cambridge Institute; at Harvard and at his office or at Harvard. In addition, it is most likely that at least and had prior knowledge of ELLSBERG's possession of the documents and/or his intentions.
- 9. IPS, Washington, D.C., was not directly involved in the distribution of the documents to the news media.

Were this the case, IPS, WDC, using its own facilities, could have made all copies necessary and provided these to the Washington bureau staffs of the involved newspapers. Instead, these staffs were contacted telephonically and told to come to the Boston area to receive their copies. This, despite the possibility of further incriminating ELLSBERG.

10. Senator GRAVEL of Alaska most likely received a copy of the documents from of IPS, WDC, or was assisted by and/or the IPS in making copies of the Senate's copy of the documents as provided by the Department of Defense.

may have been acting independently of IPS in assisting Senator GRAVEL as acting in behalf of GRAVEL made the documents available to the "Beacon Press" in Boston.

It would seem that the "Beacon Press" publication of a book on the subject would be in competition with IPS' similar book "Washington Plans on Aggressive War" (WPAW).

11. The assistance that ELISBERG received could have been limited to a relatively small number of people, namely and a few trusted youths known to the above.

Working together and with modern copying facilities this group could have performed the copying activities in the time allotted. The distribution to the news media was simple enough - calls to the Washington staffs with instructions of where the material could be picked up, which did not require a large number of persons to be involved. Further, due to the prominence of these individuals and perhaps with more common sense than ELISBERG exhibited earlier, it is unlikely that they would wish to involve any more persons than necessary in their activity.

Los Angeles believes this investigation is proceeding in an orderly and successful fashion. To substantiate the speculations set out above will require information from a source having first-hand knowledge. At present it would appear such a source would be an individual closely associated with ELLSBERG or a member of the press.

The possibility always exists that continuing investigative pressure exerted on the individuals involved may cause personal conflict among these individuals which would lead one to come forth with the necessary information to incriminate the others. RUSSO is an unstable person and ELISBERG's indiscreet public statements may incur the wrath of others involved.

I protest the action of the FBI in investigating the records of the Unitarian-Universalist Association in connection with the Beacon Publishing Company's publishing of the Pentagon Papers. When are we going to stop these Gestapo - like techniques in the land of the Free.

The Cannikin Atomic Test must also be stopped. Please bring the power of your office to bear on these two major issues.

My dear Senator:

I have received your communication of 1 - Mr. Hagy November 24, 1971, with which you forwarded a copy of a letter dated November 5, 1971, directed to you by together with a copy of a telegram sent to you dated November 10, 1971, be and These two communications protested investigation by the FBI of the records of the Unitarian—Universalist Association.

As you are aware, this Bureau, at the specific request of the Assistant Attorney General, Internal Security Division, United States Department of Justice, is conducting intensive investigation into the unauthorized disclosure of the "Pentagon papers." On October 28, 1971, a subpoena was issued by the Federal Grand Jury, Boston, Massachusetts, to obtain bank records of the Unitarian-Universalist Association and its affiliate, Beacon Press, which published Senator Gravel's edition of "The Pentagon Papers."

Pursuant to a request by attorneys for the United States Department of Justice, two Special Agents of this Eureau assisted bank personnel in a review of their records to expedite selection of items most responsive to the subpoena and to eliminate documents with no relevancy. These Agents did not make any notes regarding the bank records and did not prepare reports based on their review.

It is considered that the actions of this Bureau in the above matter have been entirely proper and were performed in response to a specific request by attorneys of the United States Department of Justice.

Sincerely yours,

J. Edgar Hoover

NEIL SHEEHAN

Award-winning NEW YOFK TIMES journalist whose investigative reporting was the basis for the publication of THE PENTAGON PAPERS

WASHINGTON-BASED NEW YORK TIMES CORRESPONDENT SPECIALIZING IN POLITICAL, DIPLOMATIC AND MILITARY AFFAIRS

Former Vietnam correspondent, THE NEW YORK TIMES and UNITED PRESS INTERMATIONAL

LECTURE SUBJECTS

THE PENTACON PAPERS: What startling facts has their publication revealed about U.S. Foreign Policy and our own institutions?
Has the Executive Branch of government become a state bureaucracy which now serves its own ends more than the needs of the Republic at large? How does this effect our domestic liberties? How does it effect the ability of Congress and the public to participate in the making of foreign policy? Does the President shape foreign policy?

HOW CAN A LASTING PEACE IN ASIA BE ACHIEVED?

Is Communism our principal enemy in Asia? No, says Mr. Sheehan, it is bad government, social injustice, disease, poverty, over-population and the exhaustion of man and the soil he tills. Should we try to force countries of other cultures to accept our way of life? From personal observation, Mr. Sheehan suggests solutions for the present problems and others which may come up in the future in Asia and elsewhere.

WHAT LESSONS ARE TO BE LEARNED FROM THE VIETNAM WAR?

How did we become involved? Have we committed war crimes in Vietnam? Past U.S. attitudes on war crimes compared with our current attitudes. Current problems facing military institutions as a result of the Vietnam war and the changes in attitudes within the services and in the public view towards them.

THE ROLE OF THE MILITARY-INDUSTRIAL-TECHNOLOGICAL COMPLEX What are the effects of military spending on our society?

THE ROLE OF THE NEWS MEDIA IN OUR SOCIETY

Mr. Sheehan discusses the great need for an independent, toughminded, critical press in the United States, feeling that the
news media are not nearly critical enough of Government and other
major institutions of our society and that the proper role of the
press is that of a separate but equal protagonist - critical of
both the institutions of our society and the youth culture that
has developed beneath it.
